How to Use This Directory

For Developers: Browse the Coding Agents and Frameworks sections to find the best tools for your stack. Top picks: Cursor (IDE), Claude Code (CLI), CrewAI (multi-agent orchestration).

For Businesses: CRM & Sales agents offer the fastest ROI. Apollo.io and Clay are industry standards for outbound. Intercom Fin for support automation.

For Builders: Combine Bolt.new or Lovable (prompt-to-app) with LangChain or AutoGen (agent framework) to ship AI products faster.

For Self-Hosters: Ollama + Open WebUI gives you a private ChatGPT. Add Anything LLM for RAG capabilities.
